## RAISE UP A CHILD SCHOOLS EXAMINATIONS BOARD INTEGRATED SCIENCE MID TERM I – 2023 PRIMARY SIX

Na	ame:		
Bı	ranch:		
ΙN	STRUCTIONS:	Examiner's Use Only	
	<ol> <li>Attempt all questions.</li> <li>Any drawing must be done in pencil.</li> </ol>	SECTION A	
	3. You must use a very good handwriting.	SECTION B	
ΤI	ME ALLOWED: 2hours 15minutes	TOTAL	
	SECTION A (40marks) Give any one man-oriented cause of soil erosion.		
) - <b>-</b>	Identify the sense in human beings where the skin i	s most active.	
	Sunshine is an element of weather. How is it useful	ıl to people?	
•	In which one way are health parades useful to P.6 b	poys?	
	Explain how chlorophyll is important towards photos	synthesis?	
	State any one function of the brain as a body organ		
•	State how a cockroach can be of use in the environment	nent.	
<b>.</b>	In one way, state how rusting can affect metallic do	ors and windows.	
٠.	Mention one disease controlled by use of <b>DPT</b> vacci	ne.	
.0.	Give any one example of a biological change.		
.1.	What type of life cycle do bees undergo?		

12. Give the use of the weather instrument below.				
<b>13.</b> Name the process by which heat from the sun reaches the water bodies.				
<b>14.</b> Mention the component of soil plants need to make their food.				
14. Mendon the component of soil plants need to make their rood.				
15. In the space provided below, draw and name a garden tool used for prune				
crops.				
а орог				
16. In which way is cotton wool found in a first aid box useful?				
201 211 Millett May 16 cotton Moor tourie and box door an				
<b>17.</b> Suggest one way of providing a cool environment at school.				
<b>18.</b> Give one local way of preserving harvested beans.				
16. Give one local way of preserving flat vested bears.				
<b>19.</b> Give the reason why <b>P.6</b> pupils are encouraged to sleep under mosquito nets.				
<b>20.</b> At what degrees in Celsius does water change to solid?				
21. Name one example of organic fertilizers.				
21. Name one example of organic refunzers.				
<b>22.</b> Explain how a nurse can determine the body temperature of a sick pupil.				
<b>23.</b> Suggest one way unwanted mating can be controlled on a goat farm.				
24. Mention one disease of the digestive system.				
= 11 1.5ion one disease of the digeoute system				

2 ..... INTEGRATED SCIENCE FOR P.6

<b>2</b> 5.	Point out one domestic activity where conduction is required.	
26.	How do bacteria contribute towards the formation of soil?	
27.	Name the digestive juice produced by the stomach.	
28.	Suggest any one kind of food stuff that can be included in children's diet to prevent them from developing rickets.	
29.	Give the reason why victims of Ebola should keep away from other people.	
30.	In which way do poultry farmers depend on coffee factories?	
<b>31</b> .	Identify the form of energy people need to keep warm.	
32.	Cite one way how friction is a disadvantage.	
3.	State one importance of mulching in crop growing.	
84.	Give any one way of harvesting rain water.	
<b>35.</b>	Cannibalism is a vice in poultry keeping. State one way it affects poultry keeping as a business.	
36.	Suggest one way a school can promote Information and Health Education as an element of PHC.	
<b>37.</b>	How is washing of hands before eating food important?	
88.	Write <b>SSS</b> in full.	
<b>39</b> .	Give one characteristic you can use to identity a monocotyledonous plant.	

3 ...... INTEGRATED SCIENCE FOR P.6

SECTION B	<u>(60marks)</u>

**41.** a) State one reason why farmers keep goats. b) Mention one breed of goats kept for milk production. c) Point out **two** signs by which you can tell a sick goat. (ii) \_\_\_\_\_ 42. Below is a structure of an egg. Use it to answer the questions below. a) Name the part labelled K. b) Give the function of parts **G** and **H**. (i) (ii) c) Explain how the part marked **F** is able to allow air circulation. 43.a) A good residential house must have windows, ventilators and a roof, state the importance of each of these items. i) windows ii) ventilators iii) roof b) Give one practice by which we can promote hygiene in a family house.

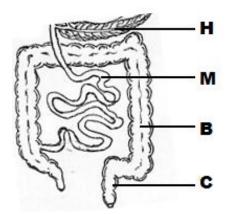

4 .....INTEGRATED SCIENCE FOR P.6

44.	a)	What are communicable diseases?			
	b)	Mention any one cause of communicable diseases.			
	c)	) Give <b>one</b> example of a communicable disease that affects the eyes.			
	c)	State <b>one</b> way by which communicable diseases are spread.			
45.	a)	In the space below, draw a diagram of;  i) Canine tooth.  ii) Molar tooth			
		Give any one health problem that affects our teeth.			
	C)	Suggest one way of caring for our teeth.			
46.	a)	Define the term <b>immunity</b> .			
	b)	Give <b>one</b> way babies can be assisted by health workers to develop immunity			
	c)	Identify the part of blood responsible for human immunity.			
	d)	The HIV is said to affect the people's immunity. Explain how this happens.			
47.	a)	Write one characteristic of bacteria.			
	-	Give two examples of bacteria.  (i)			
		Point out one danger of bacteria to people.			

5 ..... INTEGRATED SCIENCE FOR P.6

	i)		
	ii)		
	b) State any one economic importance of bee keeping.		
	c) Give the reason why a person harvesting honey should wear a bee veil.		
•	a) What is personal hygiene?		
	b) Mention two elements of personal hygiene.		
	(i)		
	(ii)		
	c) Give one advantage of observing high standards of personal hygiene.		
	Below is an illustration of a certain process in nature. Use it to answer the given questions.  Chlorophyll  Carbon dioxide + NNN		
	the given questions.  Chlorophyll  Carbon dioxide + NNN		
	Carbon dioxide + NNN		
	Carbon dioxide + NNN Glucose + Oxygon    Name the process illustrated above.  D) Identify the component of the process represented by:		
	Carbon dioxide + NNN Glucose + Oxygen  a) Name the process illustrated above.  b) Identify the component of the process represented by:		
	Carbon dioxide + NNN Glucose + Oxygen a) Name the process illustrated above.  D) Identify the component of the process represented by:  (i) NNN:		
ı	Carbon dioxide + NNN Glucose + Oxygen a) Name the process illustrated above.  D) Identify the component of the process represented by:  (i) NNN:		
ı	Chlorophyll  Carbon dioxide + NNN  A) Name the process illustrated above.  D) Identify the component of the process represented by:  (i) NNN:  (ii) XXX:		
	Carbon dioxide + NNN Glucose + Oxygon (a) Name the process illustrated above.  (i) NNN:  (ii) XXX:  d) Give any one importance of the process illustrated above.		
	Carbon dioxide NNN  Carbon dioxide NNN  Chlorophyll  XXX  a) Name the process illustrated above.  b) Identify the component of the process represented by:  (i) NNN:  (ii) XXX:  d) Give any one importance of the process illustrated above.  a) Give two benefits of planting trees in your school compound.		
	Carbon dioxide NNN Glucose Oxygen a) Name the process illustrated above.  D) Identify the component of the process represented by:  (i) NNN:  (ii) XXX:  d) Give any one importance of the process illustrated above.  a) Give two benefits of planting trees in your school compound.  (i)		
	Carbon dioxide NNN  Carbon dioxide NNN  Chlorophyll  XXX  a) Name the process illustrated above.  b) Identify the component of the process represented by:  (i) NNN:  (ii) XXX:  d) Give any one importance of the process illustrated above.  a) Give two benefits of planting trees in your school compound.		
	Carbon dioxide NNN Glucose Oxygen  a) Name the process illustrated above.  b) Identify the component of the process represented by:  (i) NNN:  (ii) XXX:  d) Give any one importance of the process illustrated above.  a) Give two benefits of planting trees in your school compound.  (i)		

## 52. Study the diagram below and use it to answer the questions that follow.

- a) Name part marked **C.**
- b) State what happens to food in the part marked H.
- c) How is part marked **B** adapted to its function?
- d) Name one disorder that affects part M.

## **53.** The diagram below shows one of the methods of grazing goats in Uganda. Study it and use it to answer the given questions.

- a) Name the method of grazing goats shown in the diagram.
- b) Give one advantage of using the method shown in the diagram.
- c) Apart from the method above, mention one other method of grazing goats.
- d) State one problem people may find in using the above method of goat grazing.

.....INTEGRATED SCIENCE FOR P.6

<b>54.</b> a) Name two materials from which soil is formed.
i)
ii)
b) State any one use of soil to people.
c) Identify one human activity that degrades the soil.
<b>55.</b> a) What are crop pests?
b) Mention any <b>two</b> examples of crop pests. i)
ii)
c) Suggest one way of controlling crop pests in crop stores.
